## Local cadets at Penhold camp

Approximately 2000 Air Cadets from the western provinces and northwestern Ontario will attend Summer Camp at CFB Penhold, Alberta, Penhold, in the foothills of the Rockies, is located midway between Calgary and Edmonton.

Of two weeks duration, the camps feature healthful recreation in the out-of-doors, plus advanced instruction in service history, leadership and naturally, considerable drill. The Cadets will participate in organized sports, such as swimming, volleyball, handball, softball and track and field.

Tours have been arranged to scenic areas and also to neighbouring industrial sites. Movies, a hobby shop and canteens are organized on the station.

As these young men are interested in actually flying, one highlight of the camp will be a flight in an Otter aircraft. A real thrill for every Air Cadet is his first familiarization flight in a modern aircraft. These flights are not just "joy rides" but are arranged so as to instruct Cadets in flight planning, flight safety

and navigation. High on the cadets' list of priorities is a 15 minute flight with an instructor in a glider. The glider is towed aloft, released at 2000 feet and is silently manoeuvred for a landing on the fields adjoining the runways.

For the outdoors men (boys!) a satellite camp located 60 miles west of Penhold provides a brief indoctrination into the realm of bush lore. Here, the Cadets learn the safe and efficient handling of hunting knives, axes, tents, sleeping bags, Coleman stoves and lamps. Shelter and fire building, and other basic survival techniques are impressed upon the boys.

Transportation, summer clothing, meals and medical care are provided without expense to the Cadet. Cadets are selected for camp on the basis of regular attendance and good service with the squadrons. The spiritual side of camp life is not neglected for a full time padre service is provided.

The first intake is on July 1, the next on July 14, the third on July 28 and the last camp begins on August 11th.

A permanent directing staff of 50 Air Cadet instructors and civilian instructors will be augmented by Air Cadet officers supervising the transit of the Cadets. The entire staff is under the command of Lieutenant-Colonel M. D. (Mike) Deane of North Vancouver, B.C.

### FIREFLY BEATS BULB

The average lightbulb doesn't hold a candle to the firefly. A good bulb converts only about 10 percent of its energy into light, wasting the rest as heat. A firefly operates its lamp without heat at better than 95-percent efficiency.

## Public Meeting will discuss Health Unit Act

A public meeting is scheduled for the Community Hall, St. Albert, on Tuesday, 16th of July at 2 p.m., to discuss the implications of The Health Regions Act.

This Bill was placed before the Assembly at the last session of the Provincial Legislature. It was taken through second reading and Committee as a whole, and at that time the Minister advised the House that further action would be delayed until the next session (1969) of the Legislature. The Minister's purpose in delaying the Bill was to ensure that all concerned Local Authorities and individuals would have ample opportunity to study the Bill, and in each Health Unit area to review and discuss it at an open meeting with members of the senior staff of the Department of Health.

UNDER THE NEW ACT:

- the present health units would be replaced by larger health regions administered and operated by a local board with medical, dental and other professional health personnel being furnished by the Province (but clerical staff would be employed by the Board),

- a Professional Health Services Council of three members would be appointed by the Minister to advise him on all relevant matters,
- the name, boundaries and sub-divisions of the health region and the location of the central office would be determined by the Minister,
- the cities of Edmonton and Calgary would not be included unless they so resolve,

- a board would have power to hold property, Standards for facilities, equipment, and accommodation would be laid down by the Minister,
- a Health Regions Fund would be established from which payments would be made to Health Regions. The Fund would be financed by a levy, not exceeding two mills on all included municipalities based on the equalized assessment. The included municipalities may be re-qualified for additional revenue required,
- a research, planning and resources council and a program development fund may be established.

The meeting on July 16 is open to all representatives and interested members of the public.

Jack Benny, famed comedian who is loved the world over, is sure to be a big attraction at the Grandstand when he appears July 18th, 19th and 20th at Klondike Days big show. There are two performances nightly.

## Silver Slipper Saloon has oldtime gambling

Last year a popular innovation in the Klondike Village, the Silver Slipper Saloon drew more patrons than it could comfortably handle. It was a gambler's paradise where roulette wheels, crown and anchor and blackjack ran under a full head of steam.

Klondike Days 1968 will see the Silver Slipper in a new location. Last year's music hall will be "under new management" and the 6,000-square foot building will give the gamblers and the card-players more elbow room to woo the elusive

Lady Luck.

The extra room will allow the new Silver Slipper to offer live entertainment — a Klondike dance line, honky tonk piano and so on.

Another change this year will be the use of Klondike dollars as stakes in the games of chance. Players will be able to change their folding money for the souvenir coins at a kiosk before they try the spinning wheels.

And it won't be necessary to walk out with a handful of coins after hitting the jackpot — they can be traded for dollar bills at the same change kiosk.

## Two Children's Days- They're Big

There will again be two Children's Days at the Edmonton Exhibition this year. But for the first time since Children's Days were established, rural youngsters are being invited. One hundred thousand school-age children of the Edmonton district will receive free tickets to Children's Days at the exhibition, along with youngsters in the city's public and separate schools.

Children's Days are Friday, July 19 and Thursday, July 20.

Every school student in the city and district up to the Grade nine level will receive two free tickets to Edmonton's big show — one for each of the two days.

The special tickets will entitle their holders to take part in prize draws. A Surf Skimmer, two girls' bikes and two boys' bikes and six cash prizes.

## Space minded? See the Titan

Space-minded visitors to this year's Edmonton Exhibition will have plenty to keep them busy. Exhibition officials have arranged to have a U.S. Air Force Titan 11 Intercontinental ballistic missile on display during their nine-day show, July 18-27.

The missile is an actual vehicle from the U.S. space armory that has been converted for public display. Ten feet in diameter and 103 feet long, it is transported on two giant tandem low-boys.

The Titan 11 is the space craft that has carried all American Gemini astronauts into space. Fully fueled, it weighs 150 tons. The Titan 11, designed for launching from underground silos, reaches supersonic speeds under first-stage thrust. When the first-stage engine shuts down, the second stage separates and continues down-range at speeds in excess of 15,000 m.p.h.

The display missile was

## The fireworks are back

Nightly firework displays will wind up the late grandstand shows at the Exhibition Grounds during Klondike Days. Fireworks were dropped from the 1967 program but a cannonade of public protest has reinstated them. This year's display will

be staged by Hand's Fireworks of Milton, Ontario, and will feature a Klondike Days spectacle in which a brilliant riverboat will paddle its way down an iridescent river of blazing pyrotechnics.

## Parade route changes

A bigger-than-ever, two mile long Edmonton Exhibition 1968 Klondike Days Parade route will undergo changes this year.

Mr. M. A. Auld, Parade Committee Chairman, advises that careful study of last year's route has indicated the revisions are necessary to meet the rapidly changing conditions in the downtown area, particularly in the area east of 101st Street.

When this year's parade commences at 10:00 a.m., on Thursday, July 18th, it will leave the assembly area at 104th Avenue and 96th Street, just south of the CNR crossing.

The Parade will proceed south on 96th Street to 102 A Avenue, swinging west on the avenue and going directly to 100th Street.

From 100th Street and 102 A Avenue it will turn south to Jasper Avenue, and then west to Jasper to the dispersal area in the vicinity of 100th Street.

The officials' viewing stand will be situated south of City Hall on 102 A Avenue on the north side of Sir Winston Churchill Square.

While the actual length of the Parade Route will be almost the same as last year, Mr. Auld explains that the revisions will leave Jasper Avenue clear east of 101st Street facilitating traffic flow and allow faster resumption of normal bus service after the parade.

Eddie Albert along with Jack Benny and Al Hirt will entertain thousands at Canada's biggest summer time show. Eddie will appear July 25th, 26th and 27th. Don't miss this chance to see the popular star of T.V.'s "Green Acres" in person.

### LITTLE ANNIE ROONEY

She's my sweetheart, I'm her beau.

She's my Annie, I'm her Joe.

Soon we'll marry, never to part.

Little Annie Rooney is my Sweetheart.

Al Hirt's big in more ways than one; he's a big man (300 pounds big), he's big on records and he's big on television. And now he's a headliner at the Edmonton Exhibition grandstand show and will be appearing at the three nightly shows Monday, Tuesday and Wednesday, July 22, 23 and 24.

## Al Hirt at the grandstand

The 45-year-old native of New Orleans was a pest-control salesman as recently as 11 years ago and not a well-to-do one at that. He was forced to give up trumpet bit-playing around New Orleans because he had a wife and five children to feed.

But his employer's father-in-law Don Levy owned a New Orleans night club, the Pier 600 on Bourbon Street, and he thought Hirt might live up his club during weekends.

That started it and Al Hirt hasn't looked back since. His family has grown to eight youngsters but grocery bills no longer are a problem — Big Al has blown the horn heard around the world.

His trumpet brought him seven returns to the Dunch Shore show; ten appearances with Ed Sullivan, spots

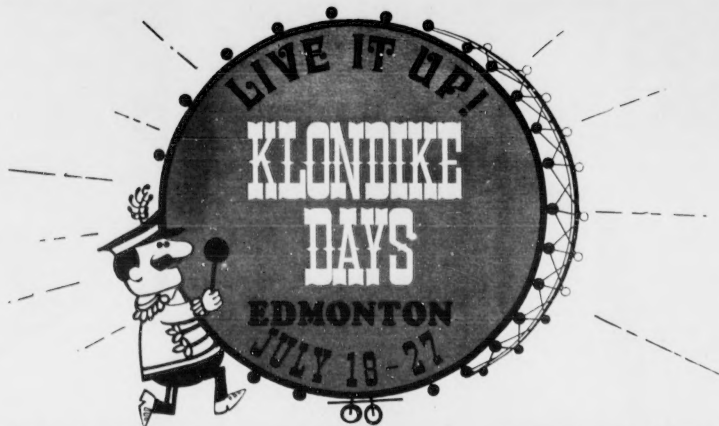

with Perry Como and Andy Williams, two movies and a stint of legitimate theatre in Kansas City.

He looks back to 1959, when a New Orleans bank wouldn't lend him \$1,000 because he was a poor risk. In 1964, when he blew his way into the \$500,000 income-bracket.

That year, 1964, was the one when he bought out the old Pier 600 and rebuilt it as Al Hirt's Place, a Bourbon Street landmark.

Al Hirt, has won the Artist-of-the-year award, five popularity awards and now a fourth Gold Record Award.

Tickets to Grandstand Headliner Al Hirt's Edmonton appearances are available at the Exhibition Ticket Office in the Bay. All seats are reserved — \$2.00 and \$1.00 for adults, with children 16 and under half price.

### AUSSIE WHEAT TO ASIA

Australia is keeping a close watch on the Asian wheat market and is making every effort to expand her export sales in that part of the world. The future of wheat for human consumption in Asia is expected to experience tremendous growth because even in Asia substantially increases its own production, this will not likely keep pace with consumption.

Australians feel they have an advantage in freight rates and will be able to offer suitable types of wheat for the diverse needs of the Asian market. This year the Australian Wheat Board

the Board is investigating the fire safety conditions.

It was decided to call a meeting on June 27 to which the Board of Trustees and the superintendent of Sturgeon School Division; the Board of Trustees of Legal School District; Dr. Hall of

the Department of Education and M.L.A. Keith Everitt would be invited. Purpose of the meeting was to explore the possibilities of establishing a joint junior-senior high school for the area.

The Board moved that a letter of appreciation be sent to Mr. Steve Rusak for his address to the CWL Provincial Convention held in Mortville June 9.

Meeting adjourned at 1:40 a.m. Present were Chairman Roppel, vice chairman, Chailoux, trustees Krauskopf, Kryskow and Teller; senior principal Fitzpatrick and sec.,-treasurer, Paul Brochu.

## Morinville honors citizens

A group of Morinville citizens were presented with Stercoraceous Engineer Certificates as a token of appreciation for services beyond the call of duty to the community during Frontier Daze 1968. Mayor Arthur Stapleton made the presentations on behalf of the Morinville Recreation Board, in a ceremony held in front of the premises of Morinville Cleaners on July 4.

Receiving the "Certificates" were Raymond McDonald, Charlie Schafer,

Andy Gervais and George Vranas. An assistant Stercoraceous Engineer certificate went to Mrs. Yvonne Vranas and Father George Primeau was the honoured recipient of a certificate for the Overseer of the Stercoraceous Engineers.

Mr. Harry White, Frontier Daze chairman, presented the Stercora Key to Engineer Ray McDonald, which Mr. McDonald accepted only until such time as the water and sewer are installed on their sports grounds. ## PUBLIC NOTICE

THEREFORE, notice is hereby given by the Board of the said School District that unless a poll of the proprietary electors of the said School District for and against said debenture loan is demanded as provided by The School Act, the said Board will apply to the Local Authorities Board for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

R. H. HARVEY

Chairman,

Dated at St. Albert, Alberta this 4th day of July, 1968,

INSTRUCTIONS TO PROPRIETARY ELECTORS IN A SCHOOL DISTRICT:

1. A poll of the proprietary electors for and against the by-law may be demanded within fifteen days after the date of the posting or of the last publication of this notice, the demand for a poll shall be in such form as is prescribed by the Minister and shall be signed.

(a) In a district other than a city district, by fifty proprietary electors or by five per cent of the proprietary electors, whichever is the number.

(b) In a city district, by one thousand proprietary electors or by five per cent of the proprietary electors, whichever is the lesser number.

2. The demand for a poll should be delivered to the secretary of the district or, in his absence to the chairman of the board of trustees.

3. Proprietary elector means any elector, who is liable to assessment and taxation for school purposes in respect of property situated in the district.

Egg and fowl producers in Alberta are concerned with the need to ensure that PRICE of their products bear a healthy relationship to COST of their products. It sounds basic but in fact price has not been steadily maintained above cost and in the low periods nobody makes a profit. And nowhere can price be maintained when there is a surplus.

Looking at the problem from all angles the producers have for the second time decided that a marketing board is the only practical answer.

But establishing marketing boards creates problems too. The Alberta Producers Marketing Council of the provincial government asserts that if a board is going to be involved in price setting and determining market quotas, then that board must be backed by a substantial percentage of producers. Therefore the council has set tough requirements for the necessary voting on the plan proposed by the producers: (1) a minimum of 300 producers (who must have marketed eggs during 1967 to be eligible) must register for the vote and (2) that producers registered must have marketed a minimum of 12 million dozen eggs in 1967. And that is two-thirds of the total marketing reported for 1967.

If these requirements are met, then a copy of the plan and a ballot will be mailed to those who have registered. Registration forms must be in by July 15th. And the plan will be put into operation if a majority of those registered vote in favour of it.

There were many factors considered by the Alberta Commercial Egg producers association in making their decision to request a marketing board. The plan they developed represents three

years of hard work. It was necessary to study the effects of automation and the growth of much larger units on the industry as a whole. The role of feed producers in the health of the industry was assessed and the need for egg producers and feed producers to co-operate. It was necessary to examine figures to determine whether in fact greater sized units meant greater NET returns.

The methods and working of egg and poultry boards in other provinces and other countries were scrutinized in detail as a way to help arrive at the best possible plan for a marketing board and to avoid making errors that such other boards may have made.

And after these and many more aspects of the problem were studied ways of clearing another hurdle remained to be found. How to get the producers to work TOGETHER - a necessity for the success of any plan to help solve their problems in controlling prices and quotas to prohibit surpluses which have cost producers so dearly. To put producers in the driver's seat it is necessary for the producers to speak with a strong and united voice.

And that is what faces the producers association and the individual producers now. Those responsible for the production of at least 12 million dozen eggs last year, and at least 300 of them must register before July 15th to get a ballot and a chance to vote on the marketing plan, which has been approved by the cabinet. Then the plebiscite will be held this summer, to be completed by August 26th and counted August 27.

Briefly, the plan proposes to set up a board of Seven Egg Producers.

1. to maintain a fair, stabilized price for eggs and fowl,
2. to develop and maintain the orderly marketing of eggs and fowl,
3. to provide a uniform, high

quality of eggs and fowl for the market.

4. to maintain adequate advertising and promotion of eggs and fowl,

5. to ensure a continuous year-round supply of eggs and fowl for the trade and consumer market, and

6. to work with marketing boards having similar objectives which may be established in other provinces of Canada.

In order to accomplish its objectives the Board would have the authority to set prices to be paid producers for eggs and to establish a system of marketing quotas.

To advise and give guidance to the Board there would be a committee known as an Industry Advisory Committee whose function would be to make recommendations to the Board regarding:

1. marketing quotas and prices to be paid producers for eggs and fowl,
2. problems and issues relating to all sections of the egg and fowl industry.

Persons on this committee would represent producers, egg handlers, feed dealers and hatcherymen. To finance the operations of the Board it has been proposed that a fee not to exceed one-half cent per dozen be levied on all eggs

marketed through registered egg grading stations and other regular marketing channels.

The Edmonton area has 4000 out of a total of 11,000 egg producers in the province. Division chairman for the area is Eric Triska. Anyone wishing further information may telephone him at 799-8163.
